Single Modular Approval. Power output listed is conducted. The module must not be co-located or operating in conjunction with any other antenna or transmitter, except in accordance with FCC multi-transmitter evaluation procedures. The module antennas must be installed to meet the RF exposure compliance separation distance of 20cm from all persons. Only those antennas listed in this filing can be used. OEM integrators must be provided with transmitter operating conditions for satisfying RF exposure compliance. The Grantee is responsible for providing the documentation required for modular use. The responsibility for the use of this module, in all configurations utilized or contemplated, remains with the Grantee.
